**Yasmeen Sayeed, Executive Director
Future Search Canada Inc.
92 – 6700 Rumble Street
Burnaby, British Columbia V5E 4H7**

Dear Executive Director:

Congratulations on the opening of Future Search Canada in British Columbia to assist British Columbia's health care system through the hiring of internationally trained nurses.

A company such as yours is an excellent example of entrepreneurship that is working towards solutions in regards to credentialing of foreign-trained professionals.

As your company, and its directors, points out, there is a huge demand for nursing graduates in our province, yet we have many qualified people who due to lack of licencing are working in menial occupations. I congratulate Future Search Canada for its efforts towards solving British Columbia's nursing shortage, and from my perspective as Parliamentary Secretary for Multiculturalism and Immigration the opportunities you are providing new immigrants is excellent.

British Columbia's economic future is based on attracting skilled immigrants to fill the thousands of jobs that our economy is creating. Businesses such as yours are filling an urgent need, and as the only private company operating in such a manner in British Columbia, your service is invaluable.

On behalf of the Government of British Columbia, please accept my sincerest congratulations on the establishment of your business in our province. I offer best wishes for much success, and thank you for all you are doing to make this province the best place on earth to live and work.

Your efforts to assist new immigrants, particularly those nursing professionals who are needed are both welcome and appreciated.

Sincerely,

**Dave S. Hayer
MLA Surrey – Tynehead
Parliamentary Secretary for Multiculturalism and Immigration**
